For-Profit Organizational Assessment Questionnaire

(takes 15-20 minutes to complete)

Description

This free assessment tool can be used to get a reasonable impression of the quality of the most important practices in your for-profit organization. It can be done by one or more people from your organization.

You could use results of this assessment tool to: 1) do an internal analysis as part of an overall strategic planning activity, 2) assess how well your organization compares to various best practices and 3) develop a common understanding among leaders regarding what needs to be done to improve your organization.

The tool focuses especially on the presence of various best practices typically needed for an organization to evolve to the next life cycle or level of development. See the life cycle model at http://tinyurl.com/y6fuft6c . This focus tends to get the most valid responses because you are asked if the practices are indeed there or they are not.

(This tool should be completed by the CEO and employees. A separate tool should be used to evaluate the Board and be completed only by the Board members and the CEO. It is available at https://managementhelp.org/misc/forprofit-board-eval-fml.pdf.)

Directions

The tool is divided into different categories, including: Legal, Human Resources, Strategic Planning, Market Research, Advertising, Public Relations, Customer Service and Sales, and Financial Management.

Next to each practice are the choices: Met, Needs Work, Not Applicable and Don't Know. After reading each, place a check mark under <u>one</u> choice to rate how well your organization does that practice <u>today</u>. Do not skip any questions. It is most valid, by far, if each person does it alone and anonymously.

If your organization is a corporation, then your organization does have a Board of Directors. So those practices are very relevant to your organization. Otherwise, ignore mention of a Board.

Analyzing Your Results

- 1. Collect everyone's completed assessment tool and also print one uncompleted copy of the tool.
- 2. On the uncompleted copy, next to each practice, write down the total of Not Met's and Don't Know's for that practice, e.g., 4 Not Mets and 2 Don't Know's = a total of 6 for that practice.
- 3. Any practice with a total of more than half of the respondents should be implemented in the organization over the next year or so. For example if there were 9 respondents, then any practice with a total of 5 or more should be implemented. If there were 10 respondents, then a total of 6 or more should be implemented.

The practices should be implemented in the general order that the categories are listed in the tool, including: Legal, Human Resources, Strategic Planning, Market Research, Advertising, Public Relations, Customer Service and Sales, and Financial Management. In a year or so, you might do this same assessment again to see if you have evolved to the next life cycle.
